

Writing for Grants and Publication

SY 2020-2021

Vincent Peter Magboo

Publication

Venues

- Conferences
- Journals
 - Open calls
 - Special issues
- Book chapters

Evaluation

- Look at the program committee / editorial board
 - Impact factor
 - H-index
-
- Look at past conference fees

Grants

Where to find grants

- DOST
- CHED
- International funders
 - USAID
 - British Council
 - Office of Naval Research Global

Parts

- Practically the same as chapters 1 to 3
- Shorter
- “Spin”

Budgets

- Personnel
 - Salaries
 - Honoraria
 - Release time
- Equipment
- Travel

Submission and review

- Evaluation examples

Who gets to be author

Substantial creative contribution

- Conceptualization
 - Design of data collection protocol
 - Access to data set
 - Analysis
 - Writing (maybe)
-
- Editing – definitely not

50 shades, again

- Ideas are cheap, data is expensive
- Labor is cheap (here) and doesn't necessarily add value
- Where's the higher-ordered thinking?

Responding to reviewers

My preference

- Two-column format
 - Reviewer's comment vs. Response
 - Highlight the portions of the text with the changes.
-
- If this were a thesis document, use a three-column format where the third column states where the changes are in the doc
