# 1. Introduction

Welcome to Mend, the digitized mental health form. This project was created to improve the current record tracking regarding the mental health care system. This project is taken up as a way of improving the health informatics scene in the country.

## 1.1. Purpose of the Manual

The purpose of this manual is to help its users understand how to utilize Mend. By following this manual, users will be able to navigate the website with ease.

## 1.2. Scope and Objectives

This manual covers the different user types that can navigate Mend. As such, this manual will have different guidelines on how each user type can navigate and operate the website.

## 1.3. Definition of Terms

To ease the understanding of the manual, below is a list of terms and their definitions that will be recurring in the manual.

- **Personal Information Sheet:** Record containing the medical history of the patient. This sheet may only be answered once.
- **Consent Form:** The form informs the patient of their rights and is agreed upon to allow the assigned healthcare professional to perform their utmost duty.
- **Counseling Form:** Record used to take down pertinent information for their psychotherapy session. There may be multiple instances of this record.
- **Treatment Plan:** Record that contains the target treatment of the patient. This record must be signed by the patient and the psychiatrist/psychologist.
- **Prescription:** Record that contains the prescriptions of the patient. Psychiatrists are the only users allowed to add prescription records.
- **Medicines:** Record that contains the medicines prescribed to the patient.
- **User:** Refers to the person using the program
- **User Type:** Used to differentiate between the user roles.

## 1.4. Introduction to Different User Types

Mend is a website that helps ease the process of creating and reviewing mental health records. There are three different user types in Mend, each with

its own role. The different user types to be discussed in the manual are the namely: Admin, Psychiatrist/Psychologist, and Patient.

## 2. Technical Setup and Requirements

### 2.1. Prerequisites of the Project

To set up the project, you will need to install Python3, Django, and PostgreSQL. Additionally, it is recommended to use a code editor such as VS Code or Sublime Text, and you should have the latest version of any web browser installed.

### 2.2. Languages and Technologies Used

The project utilizes several technologies, including HTML5 and CSS3, JavaScript for creating dynamically updating content, Bootstrap as an HTML, CSS, and JS library, PostgreSQL as an RDBMS that uses SQL, and Python along with Django.

### 2.3. Setting up the Project

To run the project on your local machine, follow these steps:

1. Clone the repository: **git clone <https://github.com/Akire-Eam/Mental-Health-Form.git> -b main**
2. Create and activate a virtual environment:
  - **python -m venv venv**
  - **source venv/bin/activate** (On Windows, use **venv\Scripts\activate**)
3. Install project dependencies: **pip install -r requirements.txt**
4. Create a PostgreSQL database named **medical**
5. Configure your database settings in the **Hackfest/settings.py** file.
6. Apply database migrations: **python manage.py makemigrations** then **python manage.py migrate**
7. Create a superuser account: **python manage.py createsuperuser**
8. Insert data for the admin user in the **accounts\_userrolemap** table:
  - **INSERT INTO public.accounts\_userrolemap (user\_id\_id, role\_id\_id) VALUES (1, 3);**
9. Start the development server: **python manage.py runserver**

### 3. Admin

Users of the Admin type are only allowed to create Psychiatrist and Psychologist users.

#### 3.1. Logging In

Users of the Admin type can get their accounts by doing **Step 7** in **Section 2.3** of this User Manual.

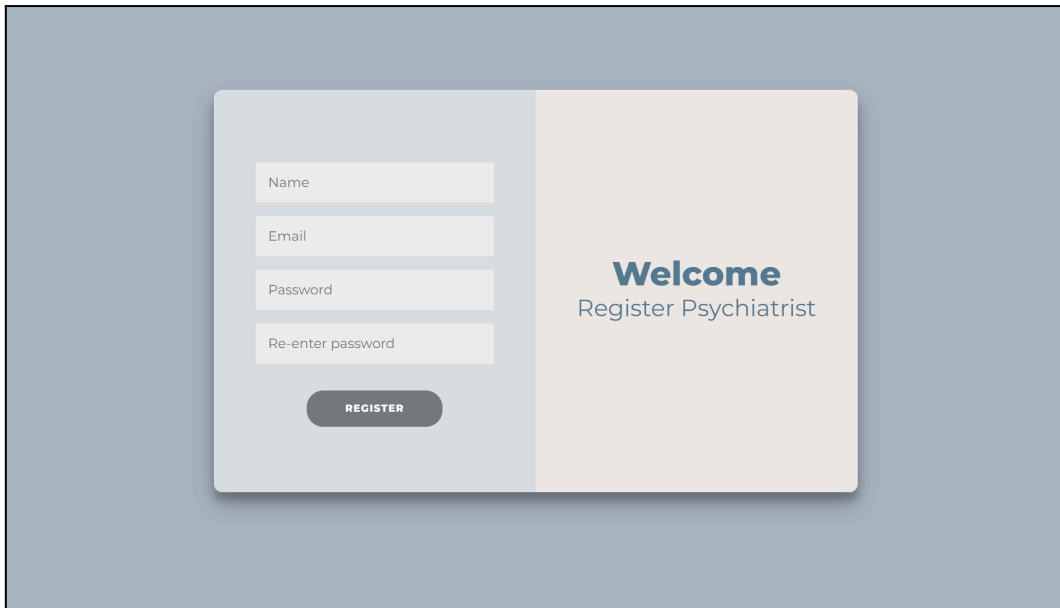

#### 3.2. Creating New Psychiatrist/Psychologist Users

Upon logging in, users will be directed to the home page. The Admin is presented with two options, to create a Psychiatrist user or a Psychologist user.

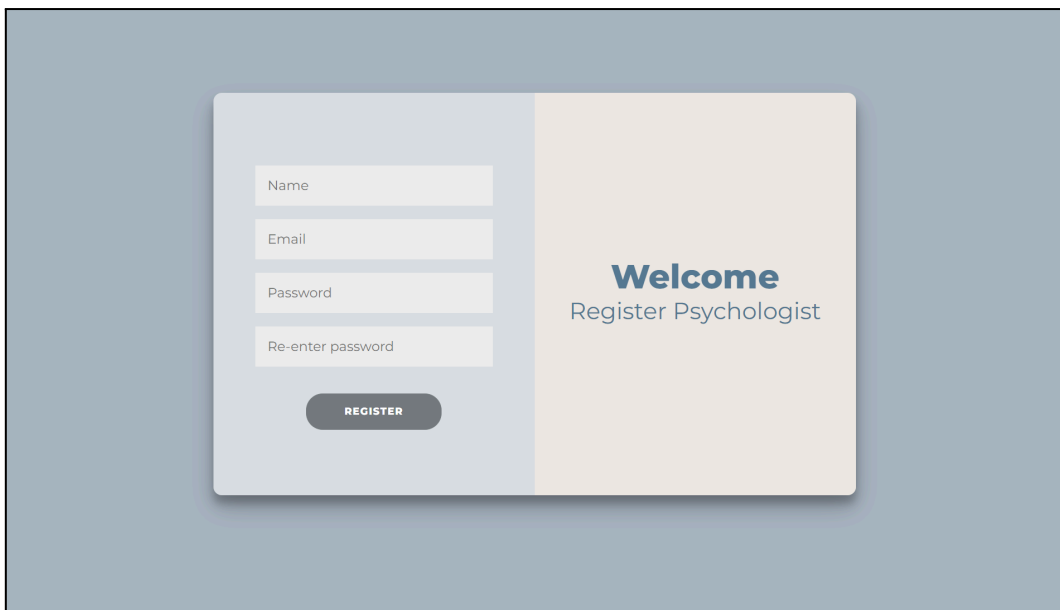

Admin Home Page

To create a Psychiatrist, the Admin should click on the '**Create Psychiatrist**' button. Upon clicking the button, the Admin will be directed to the Create Psychiatrist Page. Input the Psychiatrist's name, and email, and let the Psychiatrist input their password.

A screenshot of a web form titled 'Create Psychiatrist Page'. The form is divided into two main sections. The left section, on a light blue background, contains four input fields: 'Name', 'Email', 'Password', and 'Re-enter password'. Below these fields is a dark blue button with the word 'REGISTER' in white. The right section, on a light orange background, displays the text 'Welcome' in a large, bold, dark blue font, followed by 'Register Psychiatrist' in a smaller, dark blue font.

Create Psychiatrist Page

The same is to be done for the Psychologist User. To create a Psychologist, the Admin should click on the **'Create Psychologist' button**. Upon clicking the button, the Admin will be directed to the Create Psychologist Page. Input the Psychologist's name, and email, and let the Psychiatrist input their password.

A screenshot of a web form titled 'Create Psychologist Page'. The form is divided into two main sections. The left section, on a light blue background, contains four input fields: 'Name', 'Email', 'Password', and 'Re-enter password'. Below these fields is a dark blue button with the word 'REGISTER' in white. The right section, on a light orange background, displays the text 'Welcome' in a large, bold, dark blue font, followed by 'Register Psychologist' in a smaller, dark blue font.

Create Psychologist Page

Click on the **'Register' button** if satisfied with all the inputs for the Psychiatrist or Psychologist user.

## 4. Psychiatrist/Psychologist

Users of the Psychiatrist/Psychologist (**Psych**) type are responsible for creating Patient users. Psych users can also create and edit Patient records.

### 4.1. Logging In

Users of the Psych type can get their accounts from an Admin user. If any problems persist, kindly contact the Mend Admin to guide you with logging in.

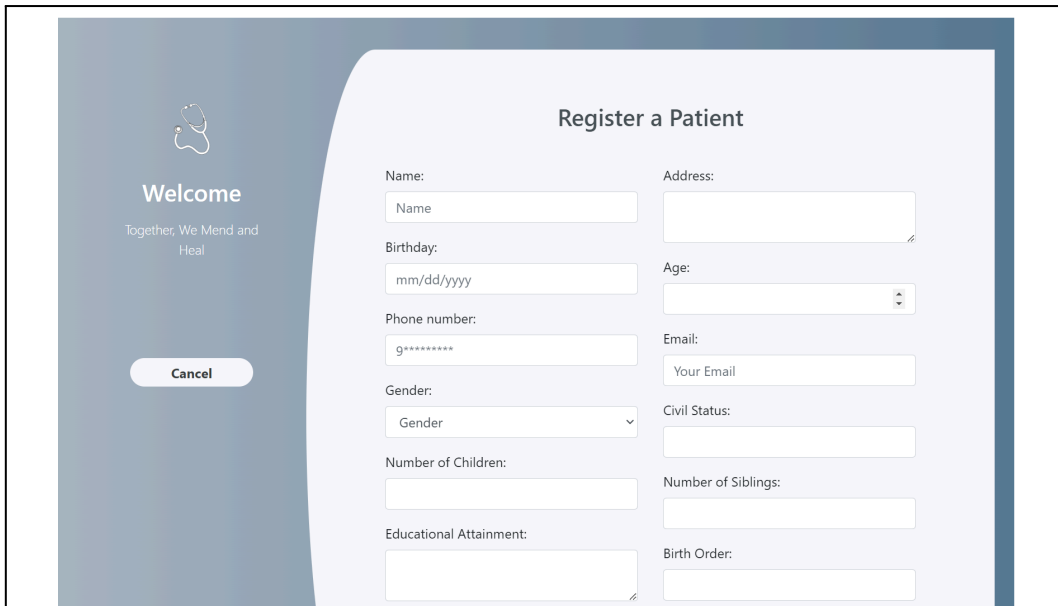

### 4.2. Creating New Patient Users

Upon logging in, the Psych user is given the option to View Patient records and to Register Patients. To create a new Patient user, click on the '**Register Patient**' button.

Psych Home Page

Upon clicking on the '**Register Patient**' button, the user will be directed to a page on which the user must fill in information about the patient. The Psych user must fill out everything that is seen on the Register Patient page. Once all information has been inputted, click on the '**Register**' button.

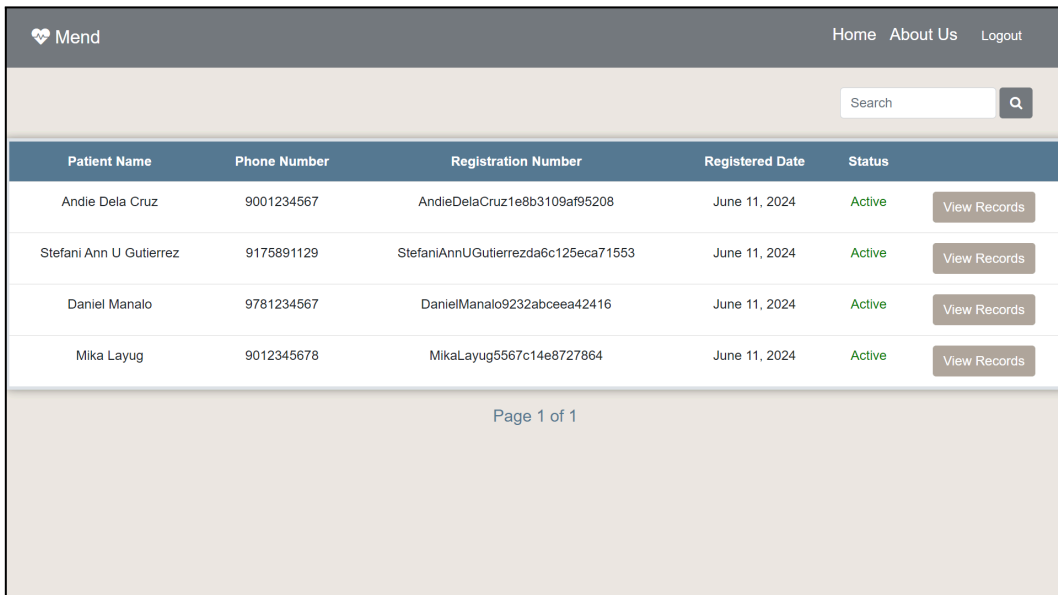

The image shows a 'Register a Patient' form. On the left, there is a 'Welcome' section with a stethoscope icon and the text 'Together, We Mend and Heal'. Below this is a 'Cancel' button. The main form area is titled 'Register a Patient' and contains several input fields: Name, Address, Birthday (mm/dd/yyyy), Age (dropdown), Phone number, Email (Your Email), Gender (dropdown), Civil Status, Number of Children, Number of Siblings, Educational Attainment, and Birth Order.

Register Patient Page

#### 4.3. Creating and Editing Mental Health Records

To view Mental Health Records, click on the **'View Patients' button** on the Psych Home Page. Upon clicking, the Psych user will be directed to the **View Patients page** where all Patient users are present. The Psych user can search the Patient's name for convenience using the search bar in the top right corner.

The image shows the 'View Patients' page. At the top, there is a navigation bar with 'Home', 'About Us', and 'Logout'. Below this is a search bar with the text 'Search' and a magnifying glass icon. The main content area is a table with the following columns: Patient Name, Phone Number, Registration Number, Registered Date, and Status. There are four rows of patient data, each with a 'View Records' button next to the Status column. At the bottom of the table, it says 'Page 1 of 1'.

Patient Name	Phone Number	Registration Number	Registered Date	Status
Andie Dela Cruz	9001234567	AndieDelaCruz1e8b3109af95208	June 11, 2024	Active
Stefani Ann U Gutierrez	9175891129	StefaniAnnUGutierrezda6c125eca71553	June 11, 2024	Active
Daniel Manalo	9781234567	DanielManalo9232abccea42416	June 11, 2024	Active
Mika Layug	9012345678	MikaLayug5567c14e8727864	June 11, 2024	Active

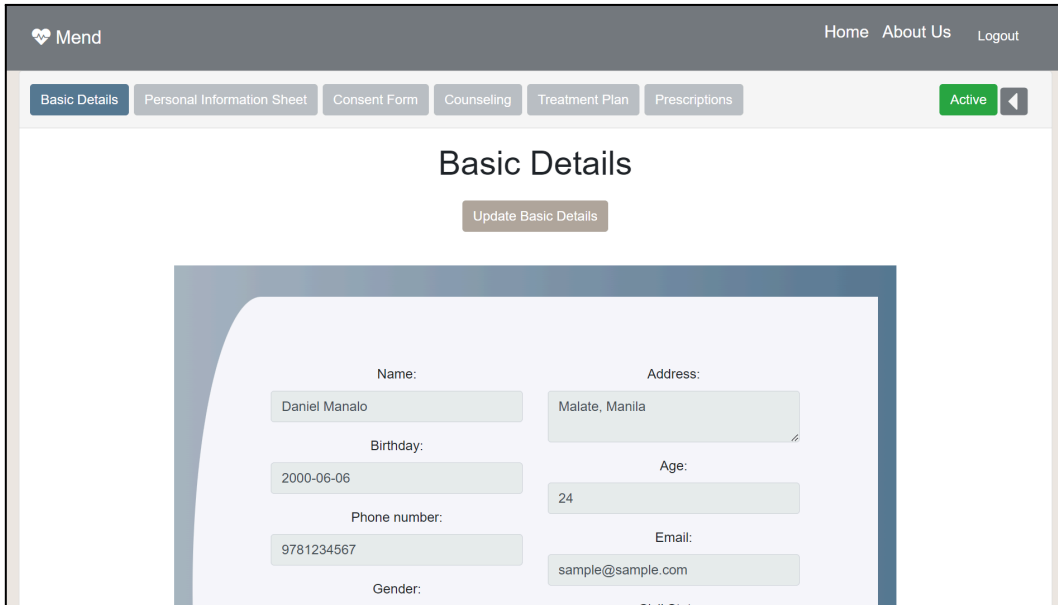

View Patients page

After clicking on which Patient user to View Records, the Psych user will be presented with the **View Records page**, where the Psych user may check the Patient's Basic Details, Personal Information Sheet, Consent Form, Counseling Form, Treatment Plan, and Prescription.

#### 4.3.1. Basic Details

The **Basic Details page** presents the information entered by the Psych during the creation of the Patient user. This is a view-only form; however, basic details can be updated by clicking the **'Update Basic Details' button**.

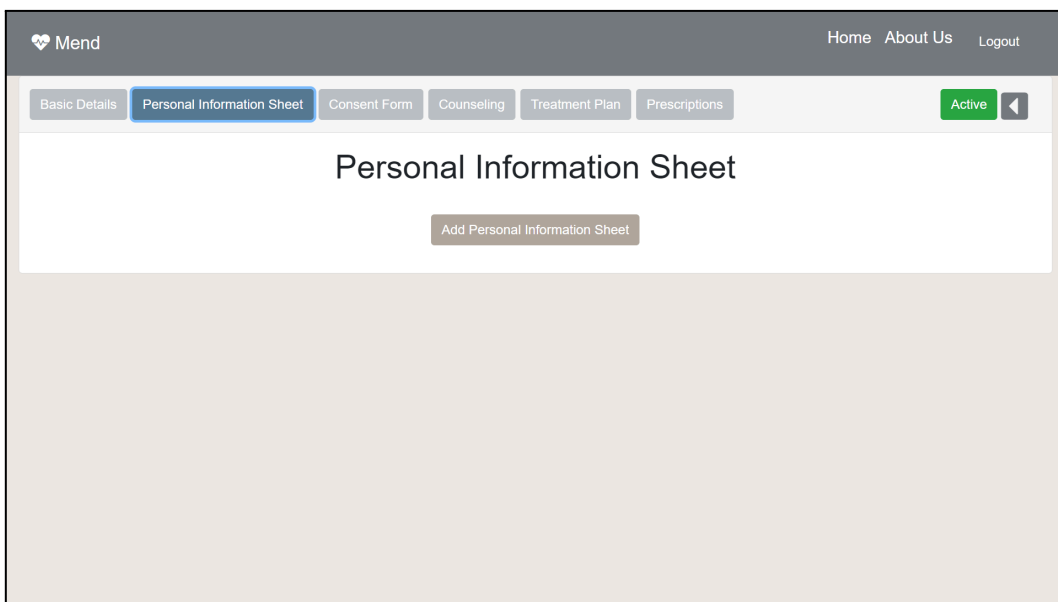

The screenshot shows the 'Basic Details' page in the Mend application. The top navigation bar includes 'Mend', 'Home', 'About Us', and 'Logout'. Below the navigation bar is a tabbed interface with tabs for 'Basic Details', 'Personal Information Sheet', 'Consent Form', 'Counseling', 'Treatment Plan', and 'Prescriptions'. The 'Basic Details' tab is active, indicated by a green 'Active' button and a left arrow. The main content area displays the title 'Basic Details' and an 'Update Basic Details' button. Below this is a form with the following fields: Name (Daniel Manalo), Address (Malate, Manila), Birthday (2000-06-06), Age (24), Phone number (9781234567), Email (sample@sample.com), and Gender (Civil Status).

View Basic Details page

#### 4.3.2. Personal Information Sheet

The **Personal Information Sheet page** is blank for now as it hasn't been created by the Psych user yet. Click the **'Add Personal Information Sheet' button** to accomplish this sheet.

The screenshot shows the 'Personal Information Sheet' page in the Mend application. The top navigation bar includes 'Mend', 'Home', 'About Us', and 'Logout'. Below the navigation bar is a tabbed interface with tabs for 'Basic Details', 'Personal Information Sheet', 'Consent Form', 'Counseling', 'Treatment Plan', and 'Prescriptions'. The 'Personal Information Sheet' tab is active, indicated by a green 'Active' button and a left arrow. The main content area displays the title 'Personal Information Sheet' and an 'Add Personal Information Sheet' button. The rest of the page is blank.

View Personal Information Sheet page

Upon clicking the **Add Personal Information Sheet button**, the Psych user will be presented with fields for the Patient's history which include Treatment History, Health and Social Information, Occupational Information, Religious/Spiritual Information, Family Mental Health History, and Other Information. All fields are required to be filled. By clicking the **Submit button** on the lower right portion of the page, the Personal Information Sheet of the patient is saved.

The screenshot shows a form titled 'Daniel Manalo' with a 'Patient Details' sidebar on the left. The sidebar includes a stethoscope icon, the text 'Patient Details', 'Nurturing Mental Health, One Mend at a Time', and a 'Cancel' button. The main form area is divided into two sections: 'Treatment History' and 'Health And Social Information'. The 'Treatment History' section contains three questions with radio button options for 'Yes' and 'No': 'Are you currently receiving psychiatric services, professional counseling or psychotherapy elsewhere?', 'Are you currently taking prescribed psychiatric medication (antidepressants or others)?', and 'Have you had previous psychotherapy?'. The 'Health And Social Information' section contains three questions with radio button options for 'Yes' and 'No': 'Do you currently have a primary physician?', 'Are you currently in a romantic relationship?', and 'Are you currently seeing more than one medical health specialist?'. There is also a text input field for 'In the last year, have you experienced any significant life changes or stressors? If yes, please explain:'.

Personal Information Sheet page

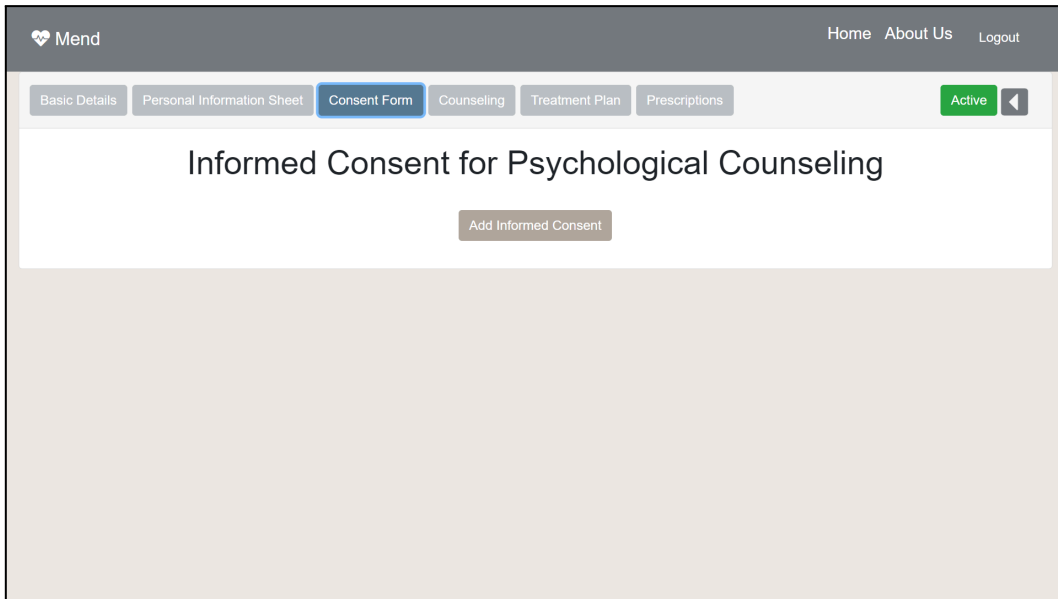

By going back to the **View Patient Information Sheet page**, it now displays a viewable form. Upon clicking the **'Update Personal Information Sheet' button**, the Psych can edit the details of the sheet again.

The screenshot shows the 'View Personal Information Sheet' page for Daniel Manalo. The page has a top navigation bar with 'Mend' logo, 'Home', 'About Us', and 'Logout'. Below the navigation bar is a tabbed interface with tabs for 'Basic Details', 'Personal Information Sheet' (which is active), 'Consent Form', 'Counseling', 'Treatment Plan', and 'Prescriptions'. A green 'Active' status indicator is visible. The main content area is titled 'Personal Information Sheet' and features an 'Update Personal Information Sheet' button. Below this is a preview of the form shown in the previous screenshot. The 'Treatment History' section shows the 'Yes' radio button selected for the first two questions. The 'Health And Social Information' section shows the 'Yes' radio button selected for the first two questions. The text input field for 'In the last year, have you experienced any significant life changes or stressors? If yes, please explain:' contains the text 'Escitalopram, Olanzapine'. The 'Prescribed by:' field contains the text 'Dr Reginald'.

View Personal Information Sheet page

### 4.3.3. Consent Form

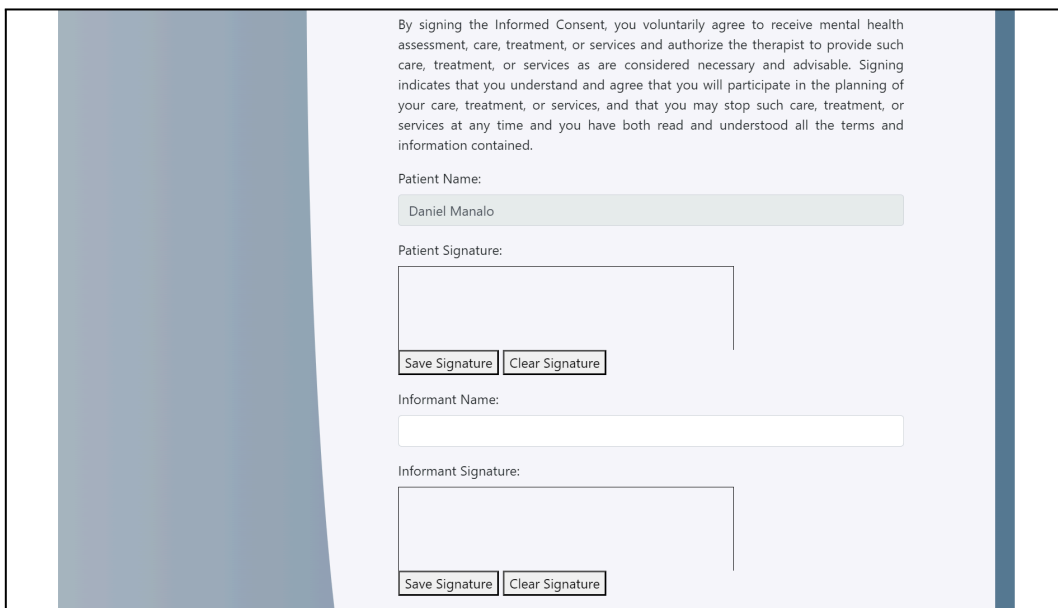

The Consent Form must be accomplished to protect the rights of the Patient as well as the Psych.

The screenshot shows a web application interface for 'Mend'. At the top, there is a navigation bar with 'Home', 'About Us', and 'Logout' links. Below this is a secondary navigation bar with tabs: 'Basic Details', 'Personal Information Sheet', 'Consent Form' (which is highlighted), 'Counseling', 'Treatment Plan', and 'Prescriptions'. On the right side of this bar is a green 'Active' button and a left-pointing arrow. The main content area has a white header with the title 'Informed Consent for Psychological Counseling'. Below the title is a brown button labeled 'Add Informed Consent'. The rest of the page is a light beige color.

View Consent Form page

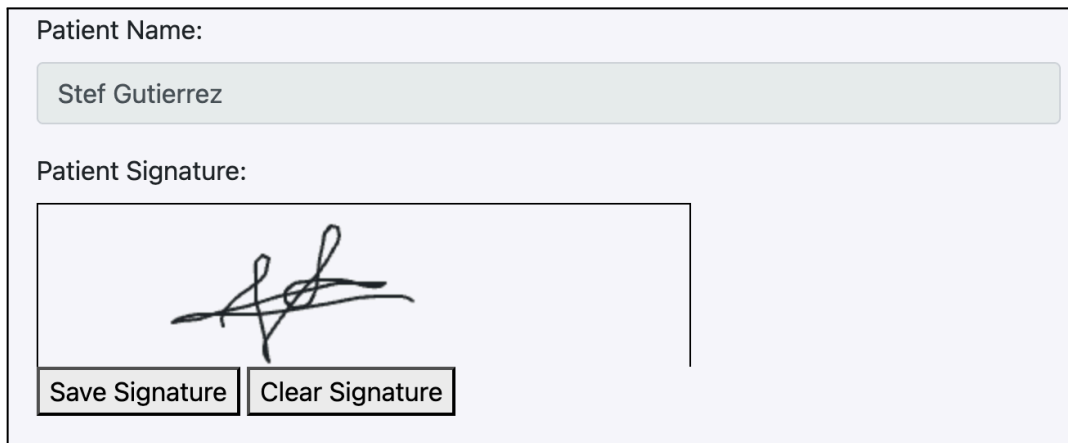

The Consent Form is a page dedicated to explaining the rights of the Patient user. The Patient user and the Patient's informant must give their signatures on the Consent Form as a way of showing their agreement for the treatment the Patient will receive.

The screenshot shows the 'Consent Form' page. It features a light blue background with a dark blue vertical bar on the left. The main content area is white and contains the following text: 'By signing the Informed Consent, you voluntarily agree to receive mental health assessment, care, treatment, or services and authorize the therapist to provide such care, treatment, or services as are considered necessary and advisable. Signing indicates that you understand and agree that you will participate in the planning of your care, treatment, or services, and that you may stop such care, treatment, or services at any time and you have both read and understood all the terms and information contained.' Below this text are two sets of input fields. The first set is for the 'Patient Name' (a text box containing 'Daniel Manalo') and 'Patient Signature' (a large text box). Below the 'Patient Signature' box are two buttons: 'Save Signature' and 'Clear Signature'. The second set is for the 'Informant Name' (a text box) and 'Informant Signature' (a large text box). Below the 'Informant Signature' box are two buttons: 'Save Signature' and 'Clear Signature'.

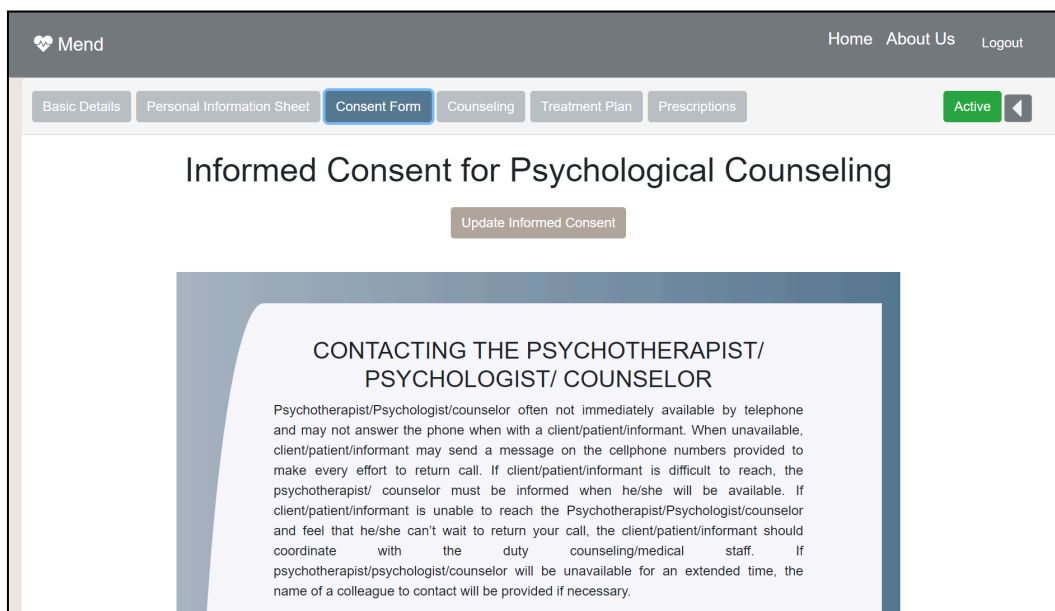

Consent Form page

To add signatures, users can simply ‘draw’ their signature on the signature pad and click the **‘Save Signature’ button**. To erase existing signatures, users can press the **‘Clear Signature’ button**.

A screenshot of a web interface for adding a signature. It features a light blue background. At the top, the text "Patient Name:" is followed by a text input field containing "Stef Gutierrez". Below this, the text "Patient Signature:" is followed by a large rectangular signature pad. Inside the pad is a handwritten signature in black ink. At the bottom of the pad are two buttons: "Save Signature" and "Clear Signature".

Adding Signatures

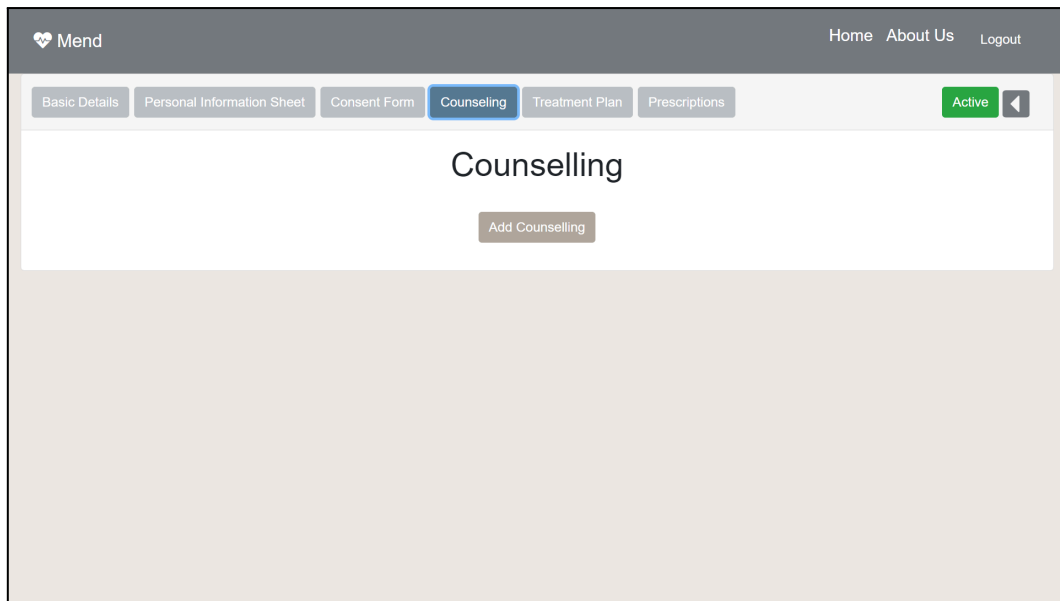

By going back to the **View Consent Form page**, it now displays a viewable form. Upon clicking the **'Update Informed Consent' button**, the Psych can edit the details of the form again.

A screenshot of a web application interface. The top navigation bar includes a heart icon and the word "Mend", and links for "Home", "About Us", and "Logout". Below this is a tabbed interface with tabs for "Basic Details", "Personal Information Sheet", "Consent Form" (which is active and highlighted in blue), "Counseling", "Treatment Plan", and "Prescriptions". To the right of these tabs is a green "Active" button and a left arrow. The main content area has the title "Informed Consent for Psychological Counseling" and a button labeled "Update Informed Consent". Below the title is a large white box with a blue border containing the text: "CONTACTING THE PSYCHOTHERAPIST/ PSYCHOLOGIST/ COUNSELOR" followed by a paragraph of text explaining the process of contacting the therapist when they are unavailable.

View Consent Form page

#### 4.3.4. Counseling Form

The **Counseling Form** is accomplished by the attending Psych. This is used when the Patient is a recipient of psychotherapy treatment. By clicking the **‘Add Counseling’ button**, Psych users are directed to the Counseling Form page.

View Counseling Form page

The Counseling Sheet presents the Psych with the Diagnostic Impression, Presenting Problems, and Psychotherapy Progress Note to address the Patient's psychotherapy session.

Counseling Form page

There may be multiple instances of the Counseling Sheet, depending on the number of psychotherapy sessions the patient has attended. Upon returning to the View Counseling Form page, the patient now has three sessions. The viewable forms of these sessions are collapsible, and each can be updated by clicking the **'Update Counseling' button**. Additionally, if the Psych user wants to add more sessions, they can simply click on the **'Add Counseling' button**.

The screenshot shows the Mend Counseling Form page. At the top, there is a navigation bar with the Mend logo and links for Home, About Us, and Logout. Below the navigation bar is a tabbed interface with tabs for Basic Details, Personal Information Sheet, Consent Form, Counseling (selected), Treatment Plan, and Prescriptions. A green 'Active' button with a left arrow is located to the right of the tabs. The main content area is titled 'Counselling' and features an 'Add Counselling' button. Below this, there are two session entries: 'Session No. 1' and 'Session No. 2', each represented by a blue bar.

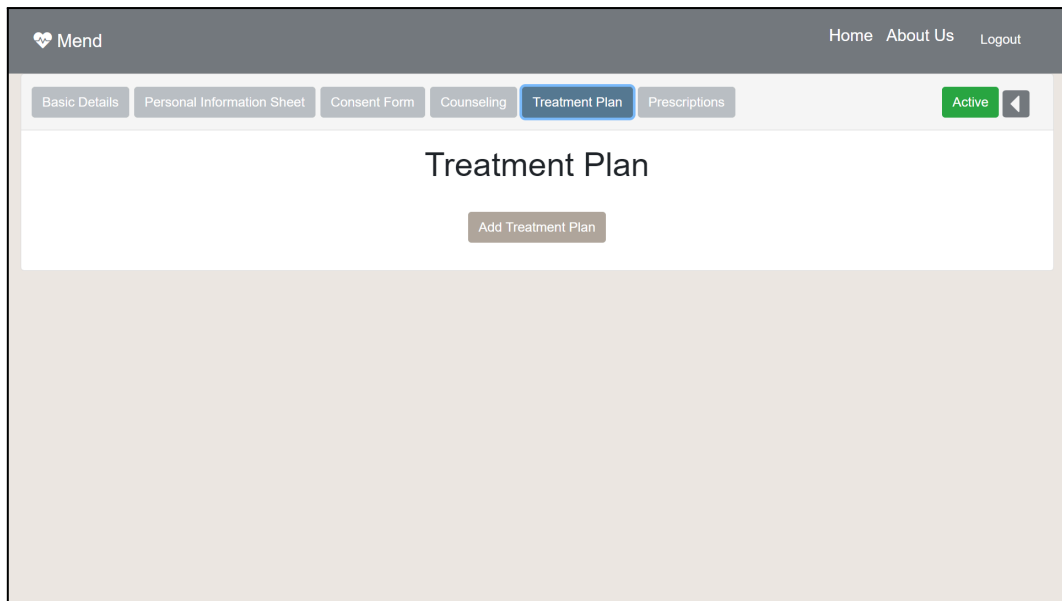

View Counseling Form page

This screenshot shows the Mend Counseling Form page with a 'Diagnostic Impression' section. The layout is identical to the previous screenshot, but the 'Add Counselling' button is replaced by an 'Update Counselling' button. Below the session entries, there is a 'Diagnostic Impression' section with a text input field containing the word 'Bad'.

View Counseling Form page

#### 4.3.5. Treatment Plan

The **Treatment Plan** is accomplished by the attending Psych. This form contains information regarding the long-term treatment of the Patient. Psych users can simply click the **'Add Treatment Plan' button** to add the Treatment Plan sheet.

View Treatment Plan page

The Treatment Plan details the Treatment Process, particularly, the Summary of the Treatment Goal, the Detailed Treatment Plan, and Frequency of Treatment.

Informed Consent for Psychological Counseling

CONTACTING THE PSYCHOTHERAPIST/  
PSYCHOLOGIST/ COUNSELOR

Psychotherapist/Psychologist/counselor often not immediately available by telephone and may not answer the phone when with a client/patient/informant. When unavailable, client/patient/informant may send a message on the cellphone numbers provided to make every effort to return call. If client/patient/informant is difficult to reach, the psychotherapist/ counselor must be informed when he/she will be available. If client/patient/informant is unable to reach the Psychotherapist/Psychologist/counselor and feel that he/she can't wait to return your call, the client/patient/informant should coordinate with the duty counseling/medical staff. If psychotherapist/psychologist/counselor will be unavailable for an extended time, the name of a colleague to contact will be provided if necessary.

PROFESSIONAL RECORDS

The laws and standards of the Psychotherapist/Psychologist/Counselor require to keep treatment records.
