Results and Conclusions

SY 2020-2021

Vincent Peter Magboo

Chapters

1: Introduction

2: Review of Related Literature

3: Theoretical Framework

4: Design and Implementation

5: Results

6: Discussion

7: Conclusions

8: Recommendations

9: Appendix

Chapters

1: Introduction

2: Review of Related Literature

3: Theoretical Framework

4: Design and Implementation

5: Results

6: Discussion

7: Conclusions

Results

- May be software design documentation
  - Emphasis on what is new or different
- May be a statistical / machine learning analysis of the data

Results

- Panelists like surprising or non-intuitive results
- If results are not surprising
  - What was the contribution of the work?
  - "I could have told you that!"
- If results are surprising
  - They have to be explained.

Results: Remember

- What is nice?
- What is needed?
- What is new?
- What is nuanced?
- What is more complex?
- What is the relationship?
- What is the difference?

Discussion

- Summary of functionalities
- Advantages
- Disadvantages
- Comparison with other systems
- Comparison with existing set-up
- Reasons/explanations for the results

Conclusions

- Recap of goals

- Recap of questions

- Recap of answers plus possible explanations, but still grounded in literature and past work
